Slovenia

Bakkeveen, 15 April 2012

Dear mr. Sotosek,

We heard that there are plans to merge the Slovenian National Institute for Adult Education with other organisations. We are very concerned about these plans and we want to express our support for a continuing independence of the Slovenian institute.

SIAE played and plays a crucial role in helping Slovenia to make its enormous progress in adult education. For Learn for Life, Dutch platform for international adult education, SIAE is a import and stimulating reference point for many topics in adult learning. Your projects are prestigious and the research projects as well. We are afraid that the loss of independence might lead to a loss of experience and expertise. We hope it will be possible to continue your excellent work as a strong, independent institute.

Yours sincerely,

Lidwien Vos de Wael
Learn for Life
